Lighter, italic numbers in corners represent stakes.

Map is only a representation of the garden layout, and is not to scale. Measurements are approximate.

Locate your 2 numbered stakes on the outside corners (on the dirt road side) of your garden plot.

The stakes on the inside (on water line) are only every other corner or so. You will have to "eye" or pace

**your boundary line on the inside between you and your neighbor.**

**ETHEL WALKER SCHOOL**
