SIMSBURY FARMS PADDLE COURTS:

The courts have been resurfaced and the wire has been replaced or repaired and tightened.

We attempt to make the courts open as much as possible during light inclement weather. Obviously despite our best efforts there will be times that the weather is too severe or not practical for the courts to be open. Please read the court policy listed below.

1. Snow Removal – Simsbury Farms snow removal schedule places the highest priority on public right-of-ways (parking lots, sidewalks and roads). The maintenance staff will remove the snow off the paddle courts after those areas are cleared.
2. Simsbury Farms staff will turn on the court heaters to dry wet courts during or after light rain or snow, remove frost, or in some light inclement weather prevent snow/ice buildup. In some situations, groups may have to turn the heaters on themselves. If conditions exist that you need to turn the heaters on, please do not turn them on for more than thirty minutes prior to your court time.

WHEN TURNING ON THE HEATER, PLEASE DO NOT TURN THE DIAL ALL THE WAY TO THE RIGHT. THIS CAN CAUSE THE TIMER TO LOCK AND THE HEATER WILL NOT TIME OUT AND SHUT OFF.

Please help us keep court costs down – heaters are not to be used to provide heat.

3. Simsbury Farms may choose to not turn on the heaters or close the courts if the weather forecast is for moderate or heavy snow, rain or sleet.
4. Cancellation information will be updated as best as possible on our website simsburyrec.com. Due to unexpected winter weather, there may be times that the courts may be closed before announcements can be made or after front desk hours.
5. If the courts are closed due to inclement weather, the first four dates affected will be rescheduled for April. Any additional rental times lost due to the courts being closed can be made up by contacting Simsbury Farms Front Desk. You must contact Simsbury Farms to reschedule. Rescheduled dates are only issued for times that the courts are closed due to inclement weather.
